Etiquette

Water: Bring water, the park does not have water.

Dog Waste: Grab or bring bags for scooping poop. There are garbage cans inside and outside of the park to dispose of the waste.

Dog Collar: A regular flat collar is recommended. No chain (choke) collars, nor spike collars are allowed in the dog park. A flat collar can be easily used to grab your dog /deescalating over excited dogs. But never grab a collar to break up a dog fight!.

Hawkesbury Dog Park rules – Règles pour le parc canin d'Hawkesbury

A dog harness :

They can be used to deescalate excited dogs.

Please closely supervise your dog if wearing a harness other dogs in a fight can get tangled in the harness causing further injuries.

Arriving at the Park – approach park with your dog leashed.

If there are 15 or more dogs in the park consider coming back at another time!

Your dog will be excited, but it is important that its not over excited. The dog park should not be the only form of exercise for your dog.

Removing the leash before entering the off leash area.

Dogs who are leashed and encounter dogs who are not, can feel vulnerable and anxious, increasing the risk of negative behaviours from the dogs in the park.

Owners of the dogs inside the park should recall their dogs or remove them from the gate area. Thus allowing the new dog to enter without being surrounded and anxious. Dogs don't like a group of dogs rushing up to it.

First visit and nervous dog.

Use the small dog park to allow your dog a chance to see the other dogs and smell the gang.

Toys at the park:

Never bring the dog's favourite toy.

Some dogs are ball or toy obsessive, which may lead to aggressive behaviours, when other dogs want to join in or steal the toy. STAY ALERT – Recall your dog.

Dog Park Socializing:

While many owners at dog parks socialize as much as their dogs, it's important that playing dogs are monitored closely at all times for their own safety. You are there for your dog's well being.

Move or walk around so that your dog looks for you and is not interested only in other dogs.

STAY CLOSE, STAY ALERT.

Children in the dog park:

If you bring children with you, please supervise them at all times. Dogs playing can easily inadvertently knock a child down. Not all dogs are familiar with small children.

KNOW WHEN TO LEAVE.

If your dog is being too aggressive (teeth bared, growling, biting, eyes narrowed),

Remove it from the park immediately.

If your dog is frightened with tail between its legs and trying to hide between yours.

Remove it from the park - it's not ready yet for a group of dogs.

If your dog is constantly barking at other dogs and won't stop – Remove it from the park.

Common Dog Behaviour

When dogs GREET each other.

When your dog is greeting another dog be aware of both of their demeanours.

*Friendly postures generally involve the dog making themselves «smaller» relative to the other dog.

*Not so friendly greetings involve the dog making themselves appear larger. For example:

Erect stance, head up, ears forward, tail up (possibly flicking tip), stripping (hair up on neck/back, puffed tail hair), direct stare (pupils may or may not be dilated), raised lips, low tone growl, snapping.

Appropriate owner response: Stop the behaviour immediately by Recall or remove of your dog from the other dog.

When dogs HUMP each other

Humping occurs for different reasons, including anxiety and stress.

Appropriate owner response: Recall or remove your dog from the other dog

Good game/play.

Good play is balanced and a two-way interaction; there is a change of roles.

What to watch for: The game can become intense and one of the dogs may become hyper-stimulated.

Appropriate owner response: The game should be interrupted frequently to avoid this rise of excitement.

Recall.

Hawkesbury Dog Park rules – Règles pour le parc canin d'Hawkesbury

Chasing/chase games.

Good play: Its a game – but you must still observe:

- 1.The pursuit must be initiated by the one who flees (invitation: «run after me»).
- 2.The one who pursues has his ears backwards; the one who flees has a mid to high tail.

Occasional change of roles excellent. No physical contact or some contact without too much impact (bumping).

Appropriate owner response: Stay vigilant and alert, watch for increase in intensity or physical contact. Recall dog as appropriate.

Risky chase.

High risk play with elevated potential for increased intensity or ganging up scenarios, see description below. What to watch for:

- 1.The one who pursues (pursuer) has his ears forward and his mouth open.
- 2.The one who flees (pursued) has a low tail and ears.
- 3.There are too many bodily impacts.
- 4.The pursuer is aiming at the neck.
- 5.The pursued faces the other when they stop; the pursued can not turn its back on the pursuer.

Appropriate owner response: STAY CLOSE, STAY ALERT. Recall your dog immediately to reduce the risk.

"Ganging UP"

An archaic instinct of predatory behaviour in which dogs will run and catch prey (but do not kill and do not eat).

What to watch for in the victim: The «victims» do not have a precise portrait and many become reactive, snapping at the predator or running away from approaching dogs.

Appropriate owner response: Recall your dog – STOP the behaviour.

"Targeting" One dog follows another dog without rest, no matter what signals the victim sends.

What to watch for: The targeting dog has ears and tail straight, eyes - head - column aligned in the orientation of the targeted dog. Targeting can turn into sexual harassment.

Appropriate owner response: Recall your dog – STOP the behaviour

Harassment

A type of targeting; defined as a dog that constantly harasses a weaker, younger or smaller dog.

It's violent and it's an assault.

Appropriate owner response: Immediately intervene and separate these dogs.

Never let your dog harass another who is afraid of him/her! If it persists leave the park.

Rejection When one or more dogs reject another. The victim is under intense stress!

Appropriate owner response:

Owner of victim – remove your dog!

Other owners, Recall your dogs.

If your dog is often a victim, the dog park is not for him/her.

How to break up a FIGHT:

Appropriate owner response:

Do not panic or scream! This will escalate the dogs' energies!

Never try to pull your dog off by their collar. The chances of getting bit are very high.

Try to grab the dog by their hind legs or, even better grab them by the hip/waist. You can really dig into his/her fur and skin and pull him/her off. The typical reaction for a dog is to look back and to see what grabbed them.

If you think the situation is too dangerous let other people handle it!

Township of Russell dog park disclaimers – Clause de non-responsabilité pour le parc canin de la municipalité de Russell

- Dog owners are subject to the *Dog Owners Liability Act* and Russell Township Municipal By-law;
- Dogs must wear their dog tags to use the park.
- Owners are legally responsible for their dogs' actions;
- Public Safety and Enforcement officers will monitor the park randomly;
- The Township is not responsible for any loss, damage or injury that may occur from the use of this dog park.

Additional information/Information additionnelle

- In both locations Town By-law Officers do regular drive by and do spot checks to see if dogs have their tags - Dans les deux endroits, les agents des règlements municipaux passent régulièrement et effectuent des vérifications ponctuelles pour voir si les chiens ont leurs médaillons.
- Rules and etiquette for the dog park need to be clearly identified and visible at the dog park entrance. If there is an incident where a dog injures another dog or human, under DOLA, liability rests solely with the owner of the offending dog - Les règles et l'étiquette du parc canin doivent être clairement identifiées et visibles à l'entrée du parc canin. S'il y a un incident où un chien blesse un autre chien ou humain, la responsabilité incombe uniquement au propriétaire du chien fautif.

<https://www.ontario.ca/laws/statute/90d16>

<https://www.ontario.ca/fr/lois/loi/90d16>

- If there is a case of kennel cough for example a sign is put up to warn dog owners and they decide if they bring their dog inside the park or not. Always the owner's responsibility. Same with sharing a common water source - S'il y a un cas de toux de chenil par exemple, un panneau est mis en place pour avertir les propriétaires de chiens et ils décident s'ils amènent leur chien à l'intérieur du parc ou non. La responsabilité revient toujours au propriétaire. La même chose s'applique pour le partage d'eau.

Additional information/Information additionnelle

- One of the biggest dangers of dog parks is that they often don't have separate play enclosures for large and small dogs. Even without meaning to, a large dog can easily cause serious injury a smaller dog. So to ensure the park's success and limit incidences different zones need to be included in the park's design - L'un des plus grands dangers des parcs pour chiens est qu'ils n'ont souvent pas d'enclos de jeu séparés pour les grands et les petits chiens. Même sans le vouloir, un gros chien peut facilement blesser gravement un petit chien. Ainsi, pour assurer le succès du parc et limiter les incidences, différentes zones doivent être incluses dans la conception du parc
